

Nilesh Shrikrushna Biladi

Data Scientist | AI/ML Developer
biladinilesh3112@gmail.com | Pune, Maharashtra | +91-9765264227 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-oriented Data Scientist with hands-on experience in Python, ML, NLP, and generative AI. Skilled in end-to-end ML pipelines, statistical analysis, ETL pipelines, API development, and data visualization. Familiar with AWS and LLM APIs. Adept at translating business problems into data-driven solutions and communicating insights to cross-functional stakeholders.

INTERNSHIP

Data Scientist Intern AI-variant Sep 2025 – March 2026

Bike Rental Demand Prediction

- ▶ **Accuracy:** Reduced RMSE by ~18% by engineering 22 weather-seasonality features and tuning Decision Tree, Random Forest & Gradient Boosting models via RandomizedSearchCV.
- ▶ **Deployment:** Built and deployed an interactive Streamlit app for real-time bike demand prediction with REST API integration, enabling data-driven decisions for daily operations.
- ▶ **Data quality:** Preprocessed 17,000+ records handling 340+ outliers/missing values, improving dataset completeness from 83% to 100% and ensuring reliable model inputs.

Tools: Python · Pandas · NumPy · Scikit-learn · Matplotlib · Streamlit · Git/GitHub

PROJECTS

Walmart Sales Prediction and Analysis 2025

- ▶ Improved model performance from R^2 0.92 (Linear Regression) to 0.97 using XGBoost; extracted key business drivers via feature importance analysis across 45 store locations to support retail strategy.
- ▶ Built end-to-end ML pipeline: EDA, feature engineering, model comparison, and reporting — aligned with transaction advisory workflows; produced visual dashboards translating model outputs into business insights.

Tech Stack: Python · Pandas · NumPy · Scikit-learn · XGBoost · Matplotlib · Seaborn

NLP-Driven Resume Classification System 2025

- ▶ Achieved 92%+ accuracy across 4 job categories using TF-IDF + SVM on 70+ resumes; built a Streamlit app for single-resume classification with predicted category and confidence score.
- ▶ Explored LLM API augmentation for contextual resume parsing; reduced preprocessing pipeline from 140 to 35 lines using SpaCy, cutting runtime by ~40% for scalable deployment on unstructured text.

Tech Stack: Python · SpaCy · Scikit-learn · NLP · TF-IDF · LLM APIs · Streamlit · Git/GitHub

SKILLS AND INTERESTS

Languages	Python, SQL
ML / AI	Regression, Classification, Time-Series Analysis, NLP, Neural Networks, Transformers, LLM APIs, Generative AI
Libraries	Pandas, NumPy, Sklearn, SciPy, TensorFlow, Keras, SpaCy, XGBoost
Data Visualization	Matplotlib, Seaborn, Plotly, Tableau
Data Engineering	Data Wrangling, ETL Pipelines, EDA, Feature Engineering, Statistical Analysis
Tools	Jupyter Notebook, Google Colab, VS Code, MySQL, Git & GitHub, Streamlit, AWS

CERTIFICATIONS

- ▶ Master’s Program in Data Science — Futureskills Prime & NASSCOM (2026)
- ▶ Data Science Course Completion Certificate — ExcelR (2025)
- ▶ Data Analysis with Python — IBM (2024)

EDUCATION

Masters of Computer Applications 2023 – 2025

RCPET’s Institute of Management Research and Development, Shirpur - CGPA: 8.08 / 10

Bachelors of Science (Computer) 2020 – 2023

R. C. Patel, Arts, Commerce and Science College, Shirpur - CGPA: 9.3 / 10
